PETZ ENTERPRISES, INC. (PEI) ANNOUNCES SUPPORT OF SCAN & STORE TECHNOLOGY FOR CROSSLINK® 1040 PROFESSIONAL TAX SOFTWARE

Tracy, Calif. (July 7, 2009) – Petz Enterprises, Inc. (PEI), makers of the CrossLink suite of tax software solutions and services designed for high-volume retail tax professionals, today announced support for Scan & Store technology with CrossLink 1040 Online Professional Tax Software.

“CrossLink customers can now capture taxpayer source documents electronically,” stated Charles Petz, CPA, Vice President of Tax Software Development. “With Scan & Store, professional tax preparers no longer have to spend time photocopying multiple taxpayer documents. Rather they can capture them electronically and store them as part of the tax return without ever leaving their desk. The time savings is significant over the course of the tax season.”

Scan & Store is a simple process that tax prepares can master in a few minutes and with minimal training. With Scan & Store for CrossLink 1040, customers can electronically scan and store taxpayer source documents, capture valid forms of taxpayer identification, and even take a photo of the taxpayer for quick and easy identification.

“We are very excited about the cost savings and security benefits of using Scan & Store with CrossLink 1040,” commented Doug Wills, VP of Tech, Tax and Telecom for BestWay Rent to Own. Wills continued, “We have 19 locations that process tax returns and many additional RTO locations that we support with their tax solutions. The less physical paperwork we have to maintain and keep track of the more secure I feel. The ability to electronically store client source documents significantly improves security and better prepares us for any potential audit scenarios in the future.”

“CrossLink is committed to improving the efficiency and security with which customers like RTO Bestway Rentals can process tax returns,” Petz said in closing.

More information regarding CrossLink support for Scan & Store technology can be found online at www.CrosslinkTax.com.
